Volume XXII, No. 1 **March, 2002**

PRESIDENT'S LETTER

Dear Members:

As we enter a new year, I have set forth a few goals for CJA and its members. I have asked our Council Members and Regional Commissioners to seek out members who are willing to get more involved with CJA and would be interested in serving on the council or on a committee.

I extend this invitation to all members who are serious about the survival of Clan Johnston/e in America - members who have the time and willingness to make a commitment so that the organization continues its strong growth and success in future years.

As we all know, the success of our organization and the success of any organization lies in its growth. Henceforth we are looking into setting up a youth program so we might encourage our younger generation to become involved with their heritage and Clan Johnston/e. In the past we started a youth column in the Spur & Phoenix, but it has since faded away. Nothing has been done since to promote that interest and get our younger members involved.

We will be setting up a committee of three or four members to start a program that will be interesting, knowledgeable and practical. We want our youth to have fun while learning about their heritage and getting involved with the organization.

We also need members to serve on the following committees: Finance, Membership and Publications. The Finance Committee simply works with the Treasurer and assists in the financial end of CJA. The Membership Committee works with our National Membership Commissioner and helps with recruiting new members, seeking members to serve as State and Provincial Commissioners and to assist members wishing to be a host at an event. The Publications Committee works with our Newsletter Editor and would be responsible for mailing out the Spur & Phoenix and distributing items of interest pertaining to Clan Johnston/e in America, for publication in other newsletters, magazines and publications. These are just a few of the duties and responsibilities that these particular committees have to fulfill.

You might be asking yourself how you could possibly serve on one of these committees and attend meetings. Actually, that is quite simple. Although CJA covers all of the U.S. and Canada, most, if not all, meetings would be held by email, fax, by telephone or by writing. This way the expense of travel should not be a concern for serving on any of the committees I mentioned above.

Please, if you have any spare time and sincerely wanted to help CJA continue to move on, consider serving on one of these committees. We ask for a brief bio on yourself that we might get to know you a bit more personally.

-Continued on next page-

We would like to know with which committee you would like to assist and the best means to contact you. Please send this information to: Arthur Johnston – P.O.Box 71 – Goffstown, NH 03045. Email me at: Lucknbooth@aol.com or fax me at 603/497-2897. CJA's 2002 AGM will be held in conjunction with the Stone Mountain Highland Games at Stone Mountain Park, Georgia, which is held in October. Dennis Watts, our Secretary and Georgia State Commissioner, is the AGM and Clan Tent Host. Dennis will submit notices to the Spur & Phoenix pertaining to the upcoming AGM to keep everyone informed.

Margot and I have scheduled a visit to Scotland in late April to meet with Lord and Lady Annandale to begin the plans and itinerary for the upcoming World Gathering of Johnston/es in 2004. W will keep everyone updated as plans develop and are finalized.

In closing I wish everyone a wonderful Easter and a safe and enjoyable spring and summer. Please take the time to remember each of our country's Memorial Day and Nation's Birthday celebrations. We are fortunate to live in a part of the world that has a bounty of freedoms including that which allows us to live where we wish and express pride in our individual heritages. May God bless us all.

Yours aye,

Arthur Johnston

WANTED

Wanted: Men
Not systems fit and wise,
Not faiths with rigid eyes,
Not wealth in mountain piles,
Not power with gracious smiles,
Not even the potent pen;
Wanted: Men.

Wanted: Deeds
Not words of winning note,
Not thoughts from life remote
Not fond religious airs,
Not sweetly languid prayers,
Not love of sects and creeds;
Wanted: Deeds

Men and Deeds
Men that can dare and do,
Not longings for the new,
Not pratings of the old,
Good life and actions bold –
These the occasion needs;
Men and Deeds

The above was written by Reverend Duncan MacGregor (1854 – 1923) who was ordained by the Presbytery of Deer on December 15, 1881. From then until his death in 1923, a span of 42 years, he served the parish of Inverallochy, the fishing village three and a half miles from Fraserburgh.

NOVA SCOTIA OATCAKES

3 cups flour
3 cups Quick Quaker Oats
1 cup butter
1 cup shortening (Crisco)
½ cup sugar (scant)
½ tsp. salt
¼ cup water

Mix all ingredients in a bowl and add water*. Roll out between wax paper to a 1/2 inch thickness. Cut, indent into squares. Bake at 375 degrees for 15 to 20 minutes until slightly brown.
***This can be mixed the night before baking, leaving in the covered bowl overnight. You can "fudge" a wee bit with the water. When the dough seems a bit too dry at rolling-out, add about a teaspoon.**

What's a Mac?

A phrase you may not be familiar with, but one that will come in handy if you take a trip to Scotland is a "wee smirr of rain." It means a "gentle fall of rain" and visitors must be prepared for a lot of that. There is a saying in Scotland: "If you can see across the loch (lake), it's a sign that it's going to rain; and if you can't see *across the loch, it's already raining." However,* the Scots do not let the rain depress them and one of them, Charles Macintosh, was inspired by it to invent the raincoat. Strangely, the English call a raincoat a mackintosh, or mac. The Scots call it a waterproof!

The President's Seat

More than 200 years ago a young man called Duncan Forbes lived on Culloden Estates. He and his sweetheart used to meet by a large stone at a quiet spot half a mile from Culloden House.

One evening, as they sat on the stone, Duncan proposed – and was accepted. To mark the occasion, he planted an oak sapling by the stone. Years passed and Duncan entered the legal profession. Eventually he became President of the Court of Session in Edinburgh.

When he retired, Duncan, by then a widower, went back to stay near Culloden. The oak sapling had become a sturdy tree. On summer evenings, he sat on the stone beside the tree. Locals called the tree The President's Seat.

When he died, Duncan left instructions the tree was never to be felled or damaged. Years went by. The tree grew bigger and bigger.

In 1867, the railway line was being laid. The President's Seat was in the way. The railway company was told they could only lay the track across the estate if they promised not to harm the tree. The railway company couldn't go around the tree. So – they tunneled under it!

The roots now go down the embankment at one end of the bridge. The tree is as sturdy as ever – a unique memorial to an over 200-year old love story.

News – News – News! We are always looking for articles for this Newsletter. Do you know of an event that our members would like to read about? This could be a wedding, an award presented, an illness survived, the birth of a baby, an anniversary celebration – please share this with us. Thank You!

~ The family of Neil Armstrong (the first man on the moon) emigrated from Scotland!
~ Porridge was cooked once a week, and poured into cleaned-out dresser drawers and cooled, then most mornings, a slab would be cut out from the drawer and reheated for the family breakfast!
~The city of Glasgow boasts more than 70 public parks – the most per head of population in the world.

Jock once attended a Temperance lecture given by Scotland's top medical man, a noted anti-drink campaigner.

The speaker began by placing a live, wriggling worm in a glass of whisky. After a moment or two it dies and sank to the bottom. The speaker said quietly to the audience, "Now my friends, what does this tell us?"

Jock piped up, "If you drink whisky you'll not be bothered by worms!"

Submitted by the International SaveThePun Foundation:

When a band of marauding knights reached the Tobermory area in Scotland they stopped by a large expanse of water to have a swim and freshen up. A Scottish boy and his father watched them jump in and, when they emerged, the boy's eyes widened and he said to his father, "Look! Now they're 12 feet tall!"
"Aye, lad," the father replied. "It is well known that knights get longer in Loch Tober."

Here's another one, or should we say pun....What do you get when you cross 50 pigs with 50 deer?
A hundred sows and bucks!

Here's the band – "Gobs O' Phun" – and they were!

GOBS O' PHUN!

On October 27, 2001, the Colorado chapter of Clan Johnston/e invaded Clancy's Irish Pub in Wheat Ridge to see one of our favorite groups of performers, Gobs O' Phun. And boy, are they ever! Made up of two Irishmen and a Scotsman, they are a wonderful little pub band that plays a variety of Scottish and Irish music.

We were joined by my wife and in-laws from Clan MacDougall and some friends from Clan Ferguson.

The band was set up in a different room than us but came back to play a couple of sets for all the Scotsmen and women in attendance and in true Scottish form we greeted them with a rousing ovation, then we banged on tables, clapped and sang along to every song they played. Needless to say, a great time was had by all.

We didn't get any business conducted that fine evening but are planning on getting together again as soon as the Robert Burns celebrations are over. Then we can concentrate on the 2002 Games season. So look for another update in the next issue.

Until then, here's wishing everyone a safe, happy and prosperous 2002.

Yours aye,
The Colorado Johnston/es

When Jock moved to London he constantly annoyed his English acquaintances by boasting about how great Scotland was. Finally, in exasperation, one said, "Well, if Scotland's so marvelous, how come you didn't stay there?"
"Well," explained Jock, "they're all so clever up there I had to come down here to have any chance of making it at all!"

STONE MOUNTAIN GAMES - 2001

The 2001 Stone Mountain Highland Games and Scottish Festival was a wonderfully attended event. Both old and new friends dropped by. We had at least 22 participants in the Parade of Tartans (admittedly at least two were in strollers) and we saw well over 60 friends and family come by for one or both days. Jacquelyn Cannon was kind enough to bring her photo album of past Games, which was a great reminder of how many wonderful people have graced our Clan since its founding here almost 26 years ago.

Andy Johnston (a real live cousin of mine) was our clan representative in the Clan Challenge athletic events. He did quite well his first time out - perhaps next year we, with Andy's help, will bring home the trophy.

To all who helped (and there are too many to name) I want to thank you for your time and effort. I particularly thank Ed and Joyce Johnston who kept allowing themselves to be volunteered for various things, and our attending council members Sally Epler and Steve Johnston who always pitch in.

We thank Dennis Watts for sending in this report on the Stone Mountain Games.

IF YOU HAVE DECIDED to host a tent, please contact Kathleen Paul, our National Membership Commissioner (address information on the last page). She will send you information to hand out to visitors at your tent as well as other information to help you, such as sign-in sheets for those visitors, the history of our Clan and back copies of the Spur & Phoenix.

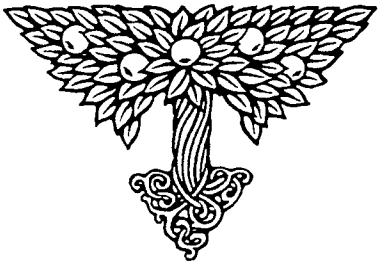
at one of the Games? Won't you take a little time to write up a few paragraphs to send in for publication in our Newsletter? How about sending in a picture or two also? If you do send us a picture, please make sure everyone is facing the camera and center the picture. It would be appreciated if you would print their identities on the back of the picture - we always like to know who those people are – thanks!!



Poor Nessie!

Is there a "Loch Ness Monster" or not? Does "Nessie" really exist? (I prefer to believe she does – but everyone can have his or her own opinion.) Not too long ago, there was a Japanese scientist who wanted to blast Nessie out of the loch and he didn't care whether she showed up – dead or alive! The scientist wanted to beam powerful sound waves into the deep waters of Loch Ness, and didn't care whether any living thing was stunned or killed.

Furthermore, he decided that if his plan didn't work, he would then drop some depth charges into the water! He was "out to get Nessie" – one way or another! Thank goodness he was allowed to do neither of these outrageous things. His intentions were reported in a recent issue of ***The Scottish Banner.***
